ABOUT TRACKZ

Optimized to withstand even the harshest of conditions, Trackz turfs provide a variety of surfaces to help facilitate numerous types of functional training such as sled, speed, agility, quickness drills, as well as other forms of training.

Our multi-layered, flexible tracks are almost exclusively manufactured in Europe and are unmatched when it comes to quality and design, always exceeding client expectations.

The high density and large number of stitches per m2 make our turf extremely comfortable for the athletes.

It also ensures that the track will continue to last long and well.

Its durability also makes Trackz the right choice for performance zones such as PT-Studios, health clubs and CrossFit boxes. To fulfil any urgent demands, we also stock many tracks in various colours and sizes, which can be turned around in just a few days.

ABOUT STOCKZ

Stockz differentiates its self by being able to deliver a vast range of high quality rubber floor coverings, directly from stock, at a competitive level!

We also pride ourselves in the fact that we contribute significantly to the circular economy; our rubber products consist almost exclusively of recycled car and truck tires.

WE STOCK PRODUCTS SUCH AS:

FITNESS TILES
PUZZLE TILES
ROLL FLOORING
UNDERLAY SOLUTIONS
VARIOUS TECHNICAL PRODUCTS
ORIGINATED FROM RECYCLED RUBBER

STANDARD FITNESS TILES

Our Standard SBR fitness tiles are available in a wide variety of thicknesses and densities. With our solutions we cover everything from low frequency home gyms all the way up to heavy duty powerlifting areas.

These products are exclusively manufactured from recycled European car and truck tires, and therefore contributing significantly to a more circular economy.

10 • 15 • 20 • 25 • 30 • 43 • 50 • 60 mm

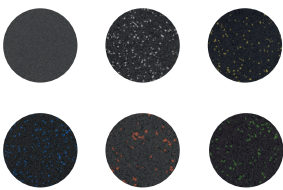

PREMIUM PUZZLE TILE

The sportsflooring puzzle tiles are manufactured from predominantly recycled black rubber crumb from car and truck tires, the coloured options have 10% EPDM added to the mix.

The puzzles are waterjet/cnc cut and will create a nearly seamless surface.

10 mm • 15 mm

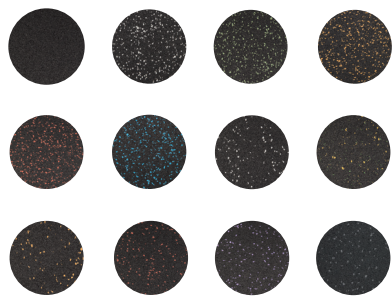

SPORTSFLOORING ROLLS

The sportsflooring rolls are manufactured from predominantly recycled black rubber crumb from truck tires, the coloured options have a percentage of new EPDM added to the mix.

As a result of exclusively using truck tires this flooring has a very fine and smooth surface.

FITNESS TILE CONNECT

The Fitness Tiles Connect is highly durable, strong and great aesthetics.

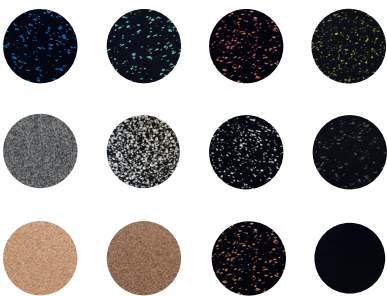

These tiles can be (loose) laid on top of existing floor coverings and are very easy to install using the unique connector system.

Next to convenience, using connectors also has aesthetic and hygiene advantages.

The connect tiles have a unique 5 year warranty period.

CUSTOM TURFS

100% customizable and optimized turf for sprint-tracks, sled training and functional training.

The high density and high number of stitches per sqm make this turf extremely comfortable and durable.

Any design, logo or functional markings can be produced as requested. The turf is made in Europe and has proven itself already for many years in the market.

Choose from a variety of 18 colours to create a unique track for your facility.

∞ meters

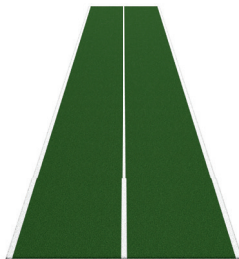

UNI TURF & UNI SPRINT

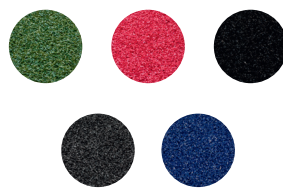

Short piled artificial turf suitable for functional training zones and sled training.
